# FIELD NOTES

A new feature about practical tips from the field.

Have you found a new way to fix a pit trap, attach a transmitter, conduct a field transect, or sedate a bear?

## Share Your Experience!

Email [editor@wildlife.org](mailto:editor@wildlife.org), put "Field Notes" in the subject line, briefly describe your idea, and include your phone number.

We'll interview you about the idea, write a brief abstract for your approval, publish it in the magazine, and credit you in print.

Field Notes are not peer-reviewed and will not preclude publication of an article in a professional journal.
